Ringing in the Ears? That's called Tinnitus – and we're here to help!

You don't have to suffer from ringing or hearing loss in your ears anymore. Millions of Americans suffer from ringing in the ears known as tinnitus and hearing loss. If you are one of them, it's time for a change.

Please join the Audiologists from **ENT Associates of Johnstown** and **Dr. Laurie Bennett**, Audiologist & Trainer of Widex USA, for an educational discussion on the assessment and management of tinnitus.

We will address the following questions:

- What is tinnitus?
- How does tinnitus relate to hearing loss?
- What are the common causes of tinnitus/hearing loss?
- How does tinnitus/hearing loss negatively impact your overall health?
- What are your treatment options?

All attendees will enjoy refreshments, an open Q&A session, and the opportunity to schedule an appointment for a Hearing Consultation at **ENT Associates of Johnstown.**

If tinnitus/hearing loss has affected your life, then it is worth a small amount of your time to join us for this educational discussion.

When: Tuesday, May 10th

**Where: ENT Associates of Johnstown
348 Budfield Street
Johnstown, PA 15904**

Time: 6:00 pm - 8:00 pm

**RSVP TODAY! SPACE IS LIMITED.
(814) 262-3950 x230**
