Life Hearing Centers

Attention: Richard Radostits

Please allow me to introduce myself. My name is Don and I am a 77 year old retired man. I have participated in sports all of my life and now including the Senior Olympics. I am married and together with my wife we stay very active.

Since my retirement at 65 years old it has been increasing difficult hearing and understanding not only my friends but even more importantly my wife and my grandchildren.

I never realized how profound my hearing loss was until I had it checked by Life Hearing Centers. Mr. Radostits (Richard) explained exactly what my hearing issues were. After having my custom made hearing aids inserted for the first time I realized I don't have to ask my wife, grandkids or friends to " enunciate or speak directly to my face". It is such a pleasure to have a normal conversation without talking over people or breaking into a conversation not really hearing or understanding what they were even talking about.

I can never thank you enough for giving me my hearing back to experience all that I have not heard in the passed years.

Sincerely,

Don Decker
Cape Coral, Florida.
