Dear Dr. Richman,

I just wanted to write and thank you for providing me with new hearing aids. I had purchased a set of aids about seven years ago, but never felt really comfortable with them or with the assistance I received from the provider.

Being under your professional care has been a whole new and enlightening experience. I now feel that my hearing is really being aided. And you really show a personal concern for your patient. I would happily recommend you to anyone needing hearing assistance. God bless you -- you are truly a "care-provider."

M. Msgr. Gregory L. S.
