

Dr. Richman,

I wanted to write and tell you how happy and satisfied I am with my new hearing aids. Since I was a child I never knew what I was missing in life until now. Now every morning I wake up I'm anxious to start my day.

You are a great Doctor. Your way with me was wonderful. The way you treated me made me think you had experienced the same in your life. Your understanding, compassion and overall caring for your patients is truly what makes you a terrific Doctor!

My life has changed almost a 180° for the better because of you.

Thank you for everything but most of all I thank you for being the person and doctor that you are.

If I had to rate you on a scale from 1 to 10 in my book you're a 100 which far exceeds the 10.

Thank you again for giving me something I had been missing. Now I'm off to enjoy life to the fullest! Also just so you know I would definitely recommend you to everyone that is in need of a hearing specialist. You're #1 in my book!

Debbie N.
