

Oticon ♦ Delta

“Hearing is *not* my problem, understanding *is*”

As someone who lives an active and varied lifestyle, you know how important it is to stay connected with the people around you. But did you know that every other person over the age of 50 often has difficulty understanding what people say when it's noisy?

With the new Oticon Delta, you can hear more clearly in virtually any situation. Groundbreaking in looks and performance, Oticon Delta is small enough to be virtually invisible behind your ear - but smart enough to keep you connected to the sounds you want to hear.

With exceptional looks in 17 high-tech colors and outstanding performance, Delta propels hearing devices well into the 21st century.

For more information about Delta, come in for a free demonstration.
