

Ask a Doctor of Audiology

About hearing loss and hearing devices

Will Helton, Au.D., FAAA, CCC-A

Board Certified in Audiology

Doctor of Audiology

Q. I've tried hearing devices, but sure didn't like feeling "plugged up". Do you offer other options?

A. The hearing industry has witnessed significant advances in styles and technology, especially with the new RITE and IIC technology. Receiver-In-The-Ear (RITE) and Invisible-In-The-Canal (IIC) instruments both hold advantages over older Behind-The-Ear (BTE) and In-The-Ear (ITE) technologies. As always, the foundation of a good fitting starts with a comprehensive audiometric evaluation and a detailed case history with a doctor of Audiology. Call us today to experience these latest advancements in hearing technology and design.
